Rocket Math

Students have begun to prepare for Rocket Math. In third grade students will begin Rocket Math multiplication. As a warm up for this, we are doing practice rounds of addition which will be followed by subtraction. Students will be doing a test on Monday which will then come home for practice. On Thursday we will do the same timed two minute test to see if students have improved

their fact recall. Students are graphing their results to chart the improvements that they are making. Thank you for helping your child succeed with math facts.

Special Guest

Mrs. Donna Broderick was our guest speaker in honor of Veteran's. Mrs. Broderick, RJ's mother, spoke to us about her husband's coming departure to Afghanistan and the reason he does he job. We thank you for sharing with us Mrs. Broderick!
