

# **Mrs. Reifsteck's Weekly Newsletter**

## **11/17/08**

These are the things that we're working on in our classroom:

**Math**

We are starting to learn how to solve simple story problems. The students decide if they need to add or subtract by listening to the story problem.

**Reading**

Reading is going very well! The students have made great gains since the beginning of the year. I know that reading at home has helped tremendously. Thank you for your help and dedication! ☺

**Writing**

We have many Thanksgiving writing activities to do.

**Miscellaneous**

Please send in old magazines or newspaper ads that we can use for a cut and paste activity next week.

**Word Work**

Word Wall words for this week:

was      your      one

what      they      out

**Other important information:**

- Please send in canned or boxed food for our Thanksgiving food drive.

Please don't hesitate to contact me if you have any questions or concerns.
