## JUST A NOTE...

Art catch up for June 1 has been cancelled.

THANK YOU FOR ALL YOUR SUPPORT!

This has been a wonderful year.

## WEEK IN REVIEW

**SOCIAL STUDIES:** We learned about being a good citizen. The children then thought of different ways to be a good citizen in their community.

**MATH:** We continued to learn division this week. Please practice multiplication with your students over the summer.

**READING:** We are reading books by Beverly Cleary and discussing them.

**SCIENCE:** We were in the computer lab a lot and finished out research paper.

## SUMMER SUGGESTIONS

Encourage your child to read, newspaper articles or even comic books. (Most comic books are written on a fourth-grade reading level).

Get a set of multiplication flash cards and drill for ten minutes every day.

Encourage your child to keep a journal of his summer activities.

Get an assortment of workbooks that give practice in all of the basic skills. Encourage your child to do a couple of workbook pages a day.

## IMPORTANT DATES

May 31 - No school

June 1<sup>st</sup> - Talent Show and staff/student basketball game

June 2<sup>nd</sup> - Fun Day

June 3 - No School for students

June 4<sup>th</sup> - Report card day

## HAVE A NICE SUMMER
